

Contact App User Manual

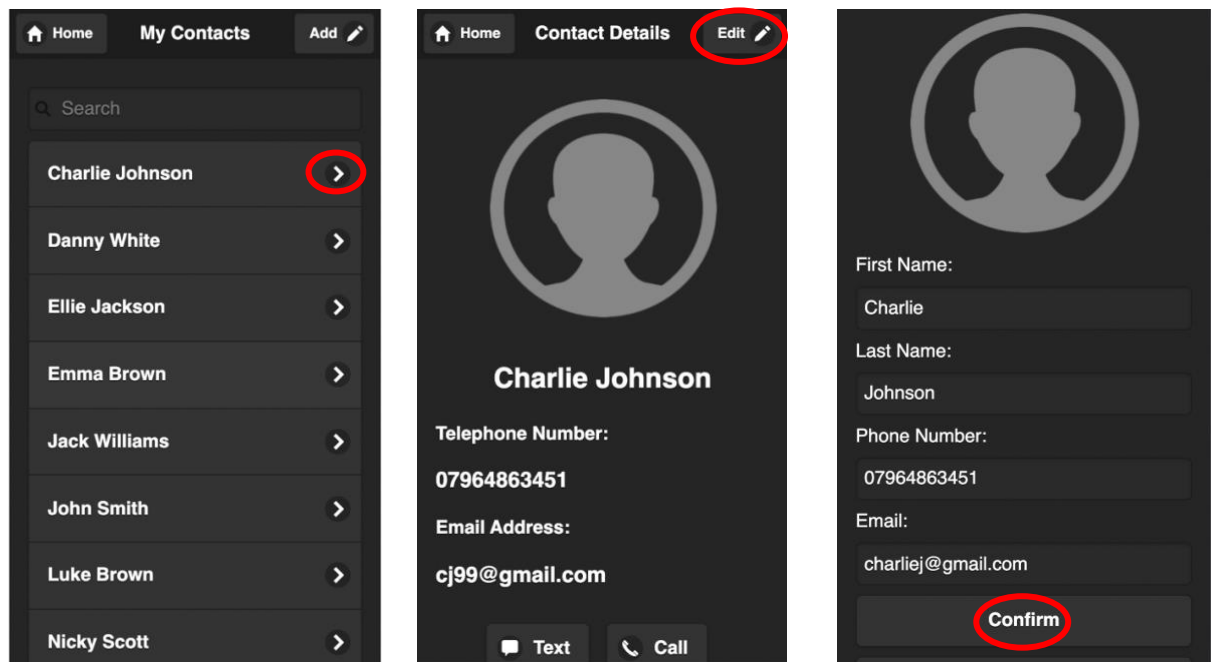

Note: For the best mobile layout on a web browser, open your browser's developer tools and change the dimensions to fit a mobile phone layout size.

Add Contact

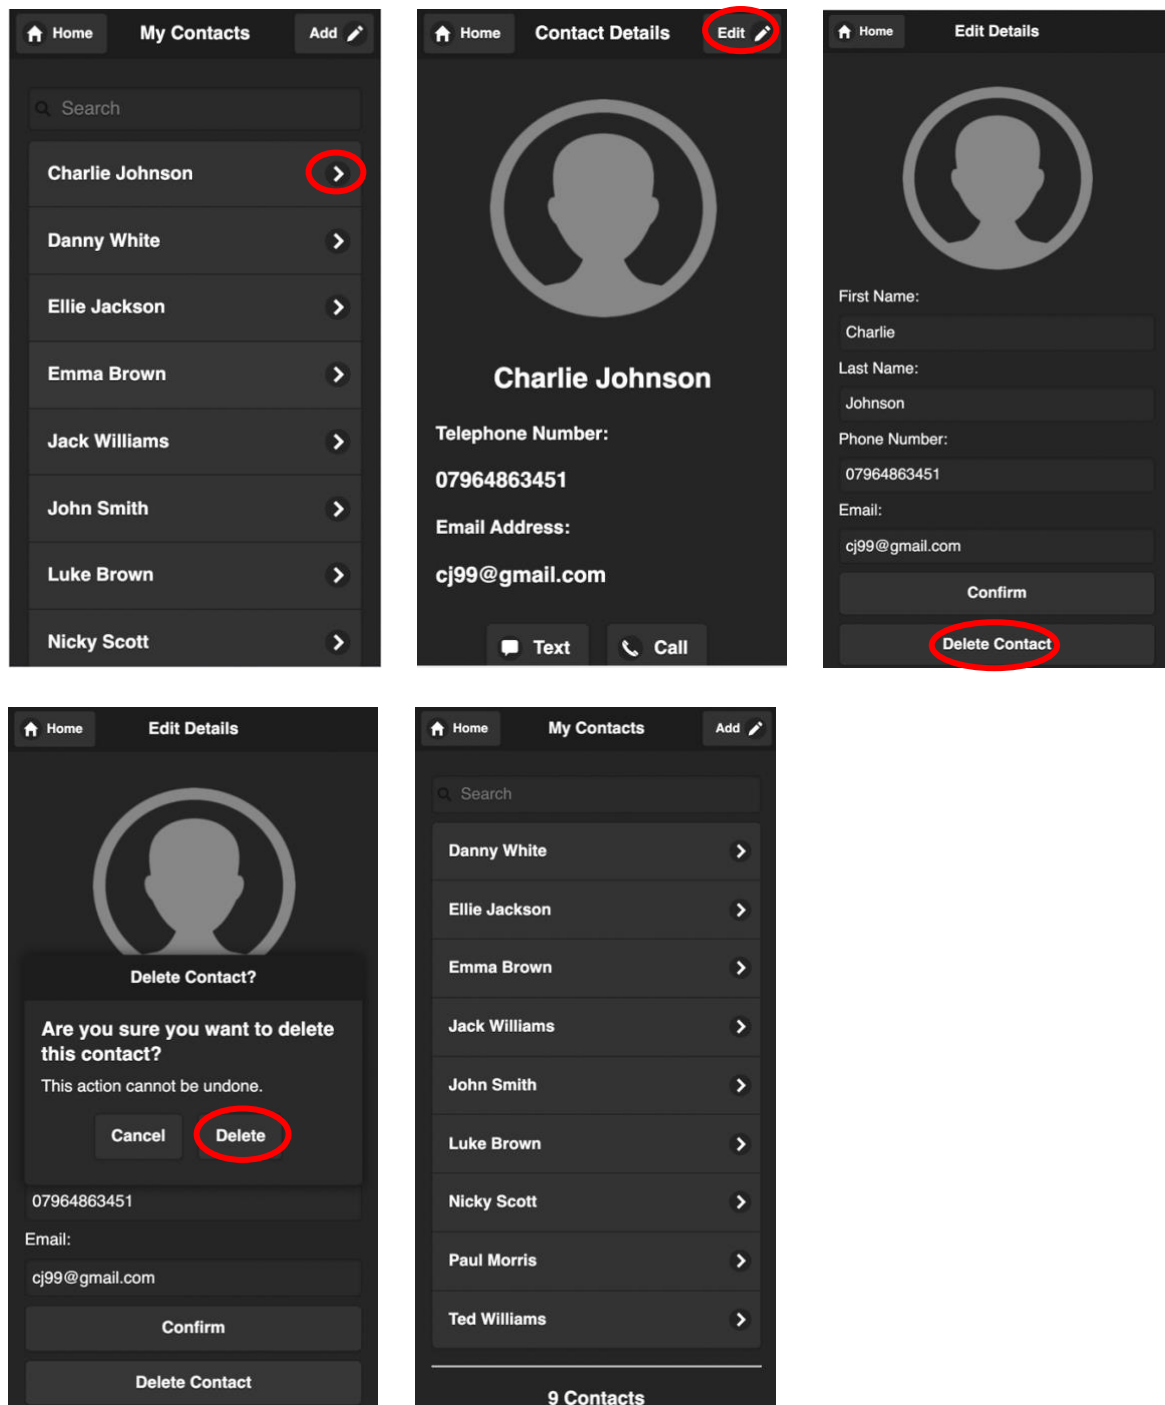

1. To add a contact, tap the add button in the top right-hand corner.
2. Fill in the contact details.
3. Scroll down and tap the add button.

View & Edit Contact

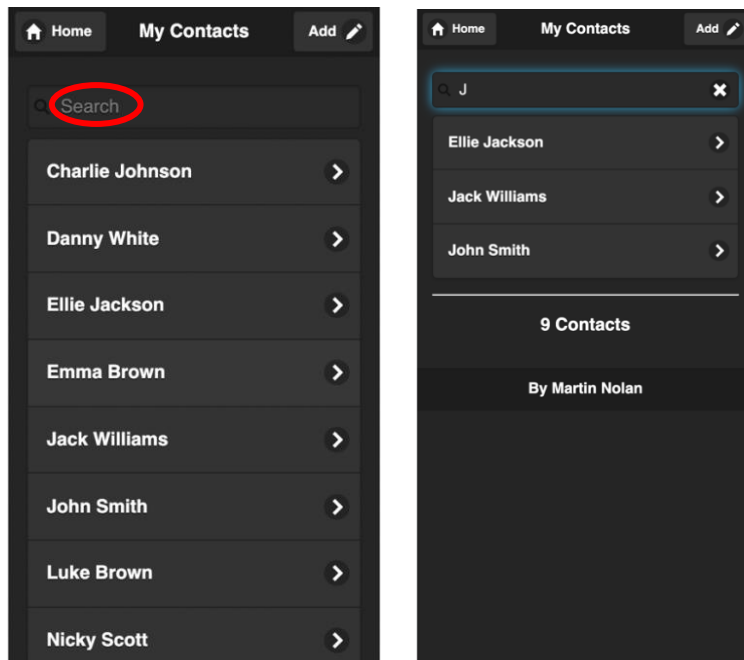

1. To view the contact's details, tap on their name.
2. To edit, tap edit in the top right-hand corner.
3. Edit the contact details as required.
4. Scroll down and tap the confirm button.

Delete Contact

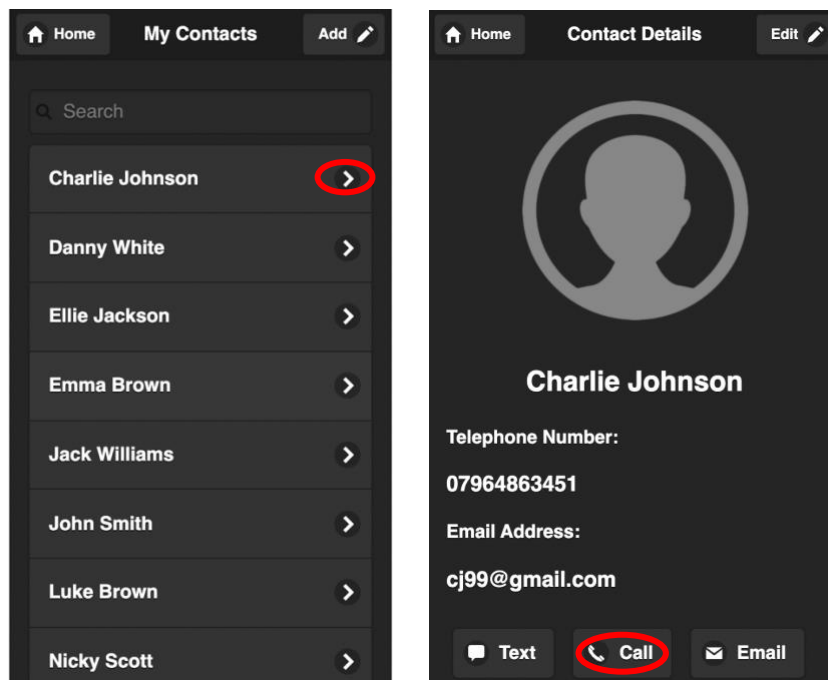

1. To delete a contact, tap on their name.
2. Tap edit in the top right-hand corner.
3. Scroll down and tap the delete button.
4. A confirmation box will appear, tap 'Cancel' to go back if you do not wish to delete, otherwise tap 'Delete' to confirm.
5. You will be taken back to the home screen, meaning the contact has been deleted successfully.

Search Contact

1. To search a contact, tap on the search bar.
2. Begin typing the contact's name.
3. You will be presented with a list of matching contacts.

Text, Call, or Email

1. To text, call, or email a contact, tap on their name
2. Scroll down and tap on the required 'Text', 'Call', or 'Email' button.

Note: If the function is not yet supported, you may be presented with a system message popup, as seen below.
